

Self-Determination is a Practice of Freedom

Laws all over the country are being passed to limit access to trans healthcare, to make talking about race, gender or sexuality illegal in classrooms, and criminalize doctors who provide life saving care. The state should not be in charge of the choices we make with our bodies, we should not be stigmatized, punished, or go to jail for being alive and existing.

Gender Affirming Care Saves Lives!

Straight & Cis people engage in gender affirming care all the time without any controversy: spas, manicures, hair removal, plastic surgery, hair-loss treatment, Viagra, protein powders, testosterone pills, etc. Current care for trans kids and adults has been tested for over 40 years and the results are that gender affirming care saves trans lives. Your gender and sexuality are yours, no one can choose them or force you into them. You should have the rights to freely determine how your body moves through this world.

One Struggle! One Fight!

Reproductive Rights
&
LGBTQ+ Rights

The Geneva Women's Assembly is a fighting, feminist grassroots organization dedicated to the liberation of working class women and gender minorities.

OUR RIGHTS ARE UNDER ATTACK!

The Dobbs decision to overturn abortion rights is part of a multi-generational strategy by the religious and political right to take us back to the norms and laws of the 1950s. For the past four decades they have been attacking voting rights, women's rights, LGBTQ+ rights, immigrants rights, disability rights, indigenous rights, and labor rights. They now have the majority on the court to take all these hard won civil rights away.

We Wont Go Back! We Will Fight Back!

Rural NYers deserve access to quality, reproductive & trans healthcare, not lies and misinformation. So we're bringing the resources our neighbors need to small towns across the Finger Lakes and building the movement we all need to make sure affirming, stigma-free reproductive & trans healthcare is available to all! Join Us!
